The following is an examiner's statement of reasons for allowance:

Claims 1-20 are allowed because the references of record do not teach or fairly suggest a condensate polisher system which contains a deep bed polisher having resin beads that are substantially exclusively single ion type, and a powdered resin polisher arranged to accept the flow from the deep bed polisher. As Applicant has correctly pointed out, Anderson (U.S. Patent No. 3,849,306) teaches away from this arrangement because the resin having the smaller particle size is located <u>upstream</u> of the deep bed polishers in this reference system (col. 4, lines 43-47), not downstream as recited in claims 1-20.

Any comments considered necessary by Applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to I. Cintins whose telephone number is (571) 272-1155. The examiner can normally be reached on Monday through Friday from 8:30 AM to 5:00 PM. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mr. Duane Smith, can be reached at (571) 272-1166.

The centralized facsimile number for the USPTO is (703) 872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
